The 2011 AGM at Fort Worth, TX Stockyards...

The Fort Worth Historical Stockyards is a must see area. Well preserved with a real western flare. Cowboys and cattle drives in town everyday, rodeos, music and museums and more!

What a perfect place for the 2011 ICHO AGM hosted by Angie Gaines. Thanks Angie! Angie was busy with Honey and the Extreme Mustang Makeover, read more about Honey and competition below. Some of us stayed at the Hyatt, across from the Old exchange Bldg. The whole town was very friendly and made us all feel welcome. Tons of shops to browse thru and take home some TX souvenirs. The smell of TX BBG and special rubs perfumed the air. Street strummers played western tunes and some were piped in as well. Our Banquet dinner on Thurs evening was fabulous at Cattlemen's Steak House. I never tasted filet mignon so good, wow! Our speakers were also fabulous.

Daily Cattle Drive
Ft Worth Stockyards

Dr Gus Cothran explained what was happening with searching for the Curly gene. It was very interesting and he has several areas of interest. So the Curly gene hunt is still on. Dr. Mitch Wilkinson gave his presentation on the Ancestral DNA Curly project. It was very interesting and enlightening. We now know Curlies come in all different breed types and their common trait is the Curly coat not actual breeds. We hope to have both Dr Cothran's and Mitch's talks available on DVD for sale. Both fantastic and so interesting to hear all the details. Will keep everyone posted when they are available. A must have DVD!

Friday we had lunch outside in the beautiful gardens of Joe T Garcia's, another wow restaurant of fabulous Mexican food. We had a fabulous time and great chats. Gus Cothran also joined us. We also had our meeting after

our lunch, more details will follow as I did not take notes. We discussed many topics but since so few of us were there it was more of a discussion time. After that we went to see Honey and Angie, but the competition had ended that day, so we visited Honey in her stall. She is so sweet! What a remarkable girl. We can see why

American Honey & Clint at the Extreme Mustang Makeover

Golden Curly American Honey, a five year old Bay Curly mare Mustang, competed as the first BLM gathered Curly mustang in the Supreme Extreme Mustang Makeover at Will Roger's Coliseum in Ft Worth, TX, Sept 14-17, 2011. American Honey was caught by BLM in the Winnemucca area of NV, known as Black Rock East along with 14 other Curly Must-

Clint and Honey

angs. Mustang Heritage Foundation (MHF), selected American Honey and approx. 200 other Mustangs for this special competition. The MHF, in partnership with the BLM strives to raise awareness of adoptions of America's Mustangs. The Mustangs, both geldings and mares, were from many different areas of the Western States

Greycoat Farm Offers For Your Consideration

Greycoat Farm, Sandra Hendrickson 7979 Lantern Rd, Indianapolis, IN 46256 greycoat@comcast.net

The following are the 2 last foals from Spartacus at Greycoat Farm. We hope that a Sport Horse home may be found for them. I am having to sell due to severe arthritis. Their athletic abilities reflect Sparky's legacy as the only curly stallion recognized on their Statistical list of stallions by the United States Dressage Federation that have had 2 or more offspring that received THE USDF HORSE OF THE YEAR AWARD. This is awarded to the 20 top scoring horses in the nation at their level of competition.

GCF SparEver

Foaled 4/09 black pinto mare that may grey. Out of a 16H Morgan mare I bought in Oregon, to replace my deceased Morgan that was the dam of my championship line. She is a very steady filly with lots of

presence, an eye catching movement with heart and mind to match. She is the only offspring from this match as Spartacus passed away. She will definitely mature over 15H and is going thru a growth spurt.

GCF SparGeist

Foaled 9/18/08 strawberry sabino mare with flaxen mane and tail. Approx 14.2H sired by Spartacus out

of VesSpar.

This young filly has powerful movement and sufficiency of bone. She has a good solid build and she will

probably grow at least another 2-3 inches as her sire grew 4" after 3 yrs. She is very willing, learns fast, picks up her feet, halter trained and has trailered with her dam. Suspected homozygous with her tightly curled eyelashes, body coat and mid thigh length tail.

SparLark

foaled 2004 This is a little mare just under 14'3 line bred, as I wanted to set these genes, to another Spartacus daughter SparLarka who has always placed in the Regionals. She is very correct, willing, easy to ride and put on the bit with lovely movement and eye-catching presence. She is beautifully trained and ready to go to first level. She trail rides, jumps and asks what is next. She has the ability to win for you as she has done in her first

two shows-built in tempo and willingness to do what ever is asked.
\$8000

Cricket about 9 yr old reg Morgan Mare that I bought

to breed to Spartacus. I preferred the Morgan cross due to the great results I had in crossing my old Morgan mare, Maggie with Sparky and getting such competitive and athletic offspring. She could be crossed with your Sport horse line and is for sale. . I will sell her for \$3500 . I just didn't want to make the Curly horse into a WB

and liked that the Morgan is an American breed. Here is what her previous owner said about her:
"My name is Rachel Smith and I have a lovely mare that I bred. Comes from old lines. Mare is Benne's Misty Light and sire is Dragonfire Kirin. My mare Cricket (Reg. Graceful Intentions) was started in dressage and ready to show training level when her progress was cut short by divorce in my home. She is very calm on trails and levelheaded. Willing and eager in her work. Has been handled gently since birth and is very easy to work with. She is 16h and has a nice top-line and strong back end. Very good feet. If you are still interested in a Dressage suitable mount. Let me know. Thank you. \$8500 or best offer."

~ Registration and Transfer Check list ~
You may include this form with your paperwork to office.
ICHO Office, HC 31 Box 102A, Williamsburg, NM 87942

Check off these items before sending in your paperwork

Registration check list: *these areas/items must all be completed/included before submitting paperwork*

Registration Form Page 1

- Horses name & "date of birth" DOB
- Place of Birth, Sex, Coat type, Sire name and reg #, Dam name and reg#
- Breeder name and address, Breeders ICHO #
- Owner name & address, etc ICHO#
- Owner signature and date
- Pedigree section, name, reg#, COLOR (*you may include copies of parents registration certificates for pedigree info*)

Registration Form Page 2

- Breeding Certificate, Date of breeding, Method of breeding
- Signature of Mare owner & ICHO#, Signature of Stallion owner & ICHO#
- Signature for use of Breeder prefix (if used)
- (or send a copy of another registries registration certificate for your horse to verify breeder)
- Copies of other registration Certificates your horse is registered in:
(*example: ABC, CSI, MFT, overseas reg, etc*)
- Identification/Markings (drawings done & completed on form)
- Color section completed

- 4 view Photos of front, rear, right & left sides printed on Photo Paper included. Ears and legs not cut off
(we do not print emailed photos for our files, you must send photos on photo paper.)
- You may email one side view photo for the certificate for clarity, but we also need it on photo paper for our files
- Hair Sample and form, Hair Sample & DNA(if desired)
- Copy of DNA report (if already DNA tested)
- Transfer form and fees (\$10.00, if you bought this horse and are registering for first time.
- Reg Fees included (reg \$29.00)
- Parentage DNA (\$35.00 if desired)
- Paid by Check, Money Order, PayPal (include copy of PayPal payment invoice) **Do Not send paperwork without payment**

Transfers:

- Seller name, address, ICHO#, ph, email
- Seller SIGNATURE & DATE of SALE
- Buyer name, address, ICHO#, ph, email
- Type of sale circled & Date of sale entered again in buyer section
- Original Certificate sent along
- Fees \$20.00 Payment Check, Money Order, PayPal (include copy of PayPal payment invoice)

~~~~~

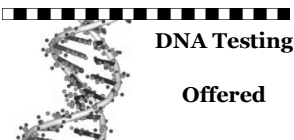

Please Note\*~ ICHO does not do rush orders, please submit all registration paperwork 6 mos before the certificate is needed, so there is plenty of time to complete them. Registrations maybe be finished earlier, it all depends on how many are ahead of your submission. Transfers only take a few days, so it is much faster to transfer an already registered horse.

\*Imports/Exports\*~ **Please buy and sell only registered horses for import/export** so you have everything you need for quarantine requirements which includes the registration certificate. Paperwork submitted to ICHO late for quarantine requirements will have a \$300.00 penalty applied. Please ask before submission if the Registrar can process the paperwork for quarantine if they are submitted late. Penalty will apply per horse, if registration is needed sooner than 6 months time frame.

**DNA Testing**

**Offered**

ICHO now offers DNA testing for:

Ancestral /Parentage \$25.00  
(combined test for one fee)

Parentage Only \$35.00

Lp color \$35.00

CA- (Cerebellar Abiotrophy) \$35.00

Visit the website for more info  
or contact the office.

## Gazette changes: Welcome our new Editor!

Welcome our new Gazette editor Mark Henning ! He will be doing all future Gazette's starting in 2012 with the winter issue. Mark is the son of our Board member Joan Henning.

ICHO also makes apologies to all our members for the lack of a winter and spring issue for 2011. Our former editor could not get the issues out for varying reasons and we offer our sincere apologies for all the inconvenience it has caused to our members. All winter and spring ads are found in this fall issue. We will be back on schedule for 2012 and all issues will be out on time. Send all ads, articles, payment to the office. Thanks for your patience!

New Editor- Mark Henning

## GAZETTE ADS

Submit all Ads to:  
[office@curlyhorses.org](mailto:office@curlyhorses.org)

### GAZETTE AD DEADLINE

We now have a new Gazette ad deadline schedule for submitting ads as follows:

WINTER: Dec 15

SPRING: Mar 15

SUMMER: June 15

FALL: Sept 15

Ads that are received after the deadline will be run in the next following issue. Payments must also be made before the deadline. All ads and payment must be sent to the office.  
Thanks!

ARTICLES- We are always looking for interesting articles for the Gazette. The article could be about training, health tips, an interesting story about a Curly or anything of interest horse related. Please send all articles to the office before the deadlines. Awaken the writer within you!

ICHO

Sandy Hendrickson--President  
Former long time board member of  
ABC--now a longer time founding  
board member of ICHO. But a long long time lover of curly

horses. After my introduction to  
curlies in ' 85 at the Hoosier  
Horse Fair following hip surgery,  
I read these horses were the epitomy  
of riding pleasure-never spooking-  
loving people but willing to do any  
task asked of them. I was intrigued.  
This was the horse for me! And it  
was! I called Sunny Martin who had  
started the ABC and she talked so  
willingly and freely about the remarkable  
assets of

this "different horse" that I knew I had to have one.

I found many inglorious curlies in my long search of visits and photo analyzing, but suddenly a year later, a very handsome 2 yr old blue pinto stallion appeared in the for sale column in Las Vegas. I bought him. Spartacus gave me an education. His offspring kept educating me. Luck had caused me to buy the only available Morgan mare in the vicinity which Sunny had advised as a breeding partner. Their offspring taught me dressage and made me a better rider. They taught the dressage riders in Indiana and the region that frizzy haired pintos and chestnuts could challenge their very roots.

I can't seem to get them out of my system although I don't ride any more. My wish for the future is for ICHO to grow and flourish because we presented and preserved this horse in such a good manner that the whole world may now enjoy their unique abilities.

#### Meet your ICHO Office Gal

Bunny Reveglia is a Founding Board member of ICHO and been around since it's beginnings. A long time horse lover, since 5 yrs old, she has owned a variety of breeds thru the years before she became enamored with the Curly. She has three Curlies, Frostfire's Xequé, Thunder Moon (hubby Dale's horse) and Xarina. Her horse interests through the years have always been trail riding and some driving. She took riding lessons years ago for dressage and jumping. She also bred Peruvian Paso's for a few years.

Bunny has a degree in radiographic imaging and has also worked in hairdressing, bookkeeping, sales, postmaster relief and a variety of other jobs thru the years. She is also very involved with helping DSLD/ESPA horses and their owners cope with the disease and helping research thru fundraising. Horses are a big part of her life and she cannot imagine not having horses in her pasture. She lives in sunny NM on a small hay farm with her hubby Dale, two dogs and three horses.

## Meet The Board

Hello my name is Sheryl D'Uva. I am on the Board of Directors, and I represent Region 1 (region 1 encom-

passes Alaska, Idaho, Montana, North Dakota, Oregon, South Dakota, Washington, and Wyoming. . This is my first year, and I hope to help in our forward movement within and for ICHO. I have owned and bred curly horses since 2006. KC Prince Charles is my senior stallion, I have several wonderful mares. We welcome visitors and questions. And encourage the public to become more familiar and involved in the curly horse. We are located in the upper NE corner of Washington, in Colville. Or breeding program is built of horses suited for many disciplines, but most importantly is the wonderful disposition of our herd. Our website is [www.cozynookcurlys.com](http://www.cozynookcurlys.com), We may also be reached by phone (509) 684-1695 and cell (509) 680-1077.

My name is Joan Henning and I live in central Michigan. I am a new board member, ICHO vice president and Region 5 Director. I am a life long horse owner and eight years ago I purchased my first curly horse. I now own three mares and one stallion, One

Curly Drifter. I compete in Dressage with my curly mare, Babydoll, and we have attained some successful awards in ICHO and the Midwest Dressage Association. We have a stable where my husband works full time boarding and training horses, and we both give lessons. I have taught high school biology for the past 25 years, I love teaching! I am also blessed to teach students whose seats are in a saddle! On our free time, we like to trail ride and camp out.

I am very available to assist or help in any way I can, Region 5 ICHO members. Please feel free to contact me: JHenning\_joanie@yahoo.com. [www.henningstables.webs.com](http://www.henningstables.webs.com)

#### Blast from the Past Pic

Well this isn't exactly a recent pic :) But only one I could find on the computer of me riding ! LOL This was me (Bunny) on my first horse an Arab, Del Gin and pic of my son & I way back in the 1980's. Wish I still looked like this! Ha Ha How time flies! Bunny

Dear members of my favorite organization,  
 And hopefully one of yours as well. We've come a long way from our beginnings that started in 2000 in Montana as a "start up" gathering at a beautiful ranch and hosted by Donna Vickery. Our original group decided to start a new Registry when ABC voted to no longer allow registration of curly horses that had an unknown or straight parent or even a curly unregistered one. This included the feral curly mustangs that had founded our organization as well as curly horses from many long standing curly breeding farms that were successfully developing competitive and competent horses to suit their disciplines. We needed a place to continue to track and register these beautiful wild curly mustangs being gathered up by the BLM as well as those we were breeding and finding on the open market. A critical need was met and filled.

We thank you all for your support and membership. Your participation in all horse activities brings recognition to our equines and appreciation from all of us who have joined together to continue similar philosophies, breed improvement and appreciation of this unique horses abilities. We now have 142 members and 1,409 horses.

A great big thank you is given to all the past and present staff, volunteers and board members who have been responsible for our success.

Share your special interests with us. Joining a group is a great way to get to know other members . Being on the board lets you help define our programs for the future.

Best wishes for a great year for you and your horses.

Your president,

*Sandy Hendrickson*

Hi, I am Jackie Richardson your ICHO/NACHR Registrar. I have been a Curly Horse breeder/owner for somewhere near 17 years or so. I raised Quarter Horses and Paints before I found Curlies and have loved horses my entire life.

My grandfather got me started in my love of horses by accident. He took me to the local sale barn when I was around 4 years old and I was determined to climb all over any horse that would let me. Soon the old timers there figured that if I was going to ride their horses all over the barn they would take advantage and have me ride them in the arena while they were selling. I soon was quite popular! The auctioneer even paid me 50 cents for every ride. However, he would never buy one for me! I won a palomino pony at a town potluck held at the park near our farm and my grandfather told the guy to take it away he didn't want it. Did I let that stop me .....oh no!

The neighbor kid had a pony that he brought down for me to ride and when I started kindergarten ( one room school house) we rode his pony to school. We then tied up the reins and smacked it on the butt sending it home where his mom would put it

away. Then my grandfather would pick us up after school and bring us home....those were the days!!!!

I met the same resistance from my mom thru my childhood and never had a horse of my own; I was forced to ride other peoples horses whenever I could.

I got married, moved around, divorced, and finally settled in Iowa once again. I found an understanding man, moved to the country and got my kids two horses. Then on to Quarter Horses, Paints and finally found Curlies!

Shortly after I aquired my first Curly and started adding on, the ABC decided to close it's books. No one I knew thought it was a good idea so a few of us started the ICHO/NACHR so the horses that would be left out in the cold would have a home with us. I

have volunteered my time for the Registrar job for 10 years as of 2010. I have made a ton of friends over the years and I thank you all for that!

I am sending a picture of myself with the first Curly Mare I bought (Sugar) and who has been the love of my life since. Also in the picture is Claudia from Holland who is riding Sofia.

## Gazette Ads Fees

Members Only: Ads also appear on the web page for 3 mos.

Gazette Editor- **Mark Henning** send all ads and payment to the office. Thanks!

| Signature X _____                                                                                                                                          | ICHO Member# _____  |

This is a new version above, the old form had this area in grey. Since it was grey some thought this was for office use only, but it is for recording Curly breeding for the horse being registered. **The breeders certificate is used to verify the breeding of a mare to a stallion on a date by a breeding method. This is required for registering offspring of that breeding.** You also need permission to use a breeder's designation if you do not have it registered in your name, for naming this horse, you will see that area also needs a signature.

**\*The mare owner and the stallion owner signs breeding certificate and marks the date of breeding and how the horse was bred, pasture, natural, AI or frozen semen.**

ICHO requires this area completed for registrations to protect the mare and stallion owner against falsified breedings or unpaid for breedings. ICHO can keep accurate breeding records for both mares and stallions and their offspring by comparing it to stallion reports so everything matches and is on file. This keeps every breeding above board and honest for all owners. We do not register breeders in ICHO, so that is another reason we need signed breeding certificates, as this validates the breeding for all eligible foals. So be sure this area is completed and signed when registering all Curly horses.

**Stallion owners**, when your stallion breeds a mare give a signed Breeding Certificate to the mare owner. **Mare owners**/or lessees, sign the same form at time of breeding, so when you sell the foal or register them yourself, you have the breeding documented.

**The owner of the dam or lessee of dam is the first owner of the foal when it is born, unless you have a written contract stating otherwise.** For example if you sell a bred mare, bred to your stallion and you have kept the ownership rights to the foal. This needs to be clearly stated in a contract. Most of the time, the first owner of the foal is the mare/dam owner at time of birth. When a foal is sold, **the first buyer is the second owner of the horse.** If the horse is not registered, the new owner/buyer will need to submit a registration form as well as a transfer form that includes the breeding certificate signed. This is so ICHO can document the legal change of ownership from first owner to first buyer. This also protects horse owners as well, so we know this was a planned approved sale and the horse was not stolen and is completely paid for during the sale. To sell a horse you have to be the legal owner (or agent with written contract) Only the seller can sign the transfer form to new owner. First Registrations and Transfer can be done at the same time and first buyer can be listed on the certificate as owner.

So remember to get signatures on the Breeding certificate on the registration form and if you are the new owner of the horse you also need the transfer form signed by the seller. This is a requirement for ICHO. Thank you!

**\*Incomplete registrations and transfers submitted to the office now have a time frame of 90 days for US and 120 days for Canada and Overseas to be completed by the owner/submitter.** Incomplete items include: incorrect payment, no payment, missing photos, missing hair sample, missing information, forms, signatures, etc. All missing items need to be submitted within the above time frames or the paperwork goes into a dead file and will not be processed. Everything must be resubmitted as well as new payment to get the process started again. Why? There is a backlog of incomplete paperwork that is years old piling up in the office and registrars files. It takes too much time for the office and registrar to weed thru years of old work that owners didn't complete and try to get it current. This slows things down for current correct paperwork as well. So to speed up the process, we now have limits on how long incomplete paperwork is active. You will receive an email or a written notice from the office or registrar of what is missing and is needed to complete your paperwork. You will get another reminder and then it is up to you to follow thru to complete your work.

The best remedy is to be sure to send everything correctly before it gets to the office. We also do not accept any photos emailed except for the one certificate photo. The office and registrar do not have the time to resize and print emailed photos for all views. Please be sure you send photos on photo paper with every registration, 4 views required, left and right sides, full front view with head up and rear view. Do not cut off head or ears or feet. We are also receiving registrations that have incomplete pedigrees, all horses must be listed by their registered name and prefix with COLOR, Reg#, and all registries listed. If this is not complete it slows down the registrar. Every incomplete form we get slows down everyone's paperwork. Thanks for your help in making the

registration and transfer process work faster. Right now most submissions are incomplete, around 90%, we would like to get that down to 1% 😊 You can help us save time and process the work faster by submitting only complete paperwork. We processed around 150 registrations and transfers in 2010. Thanks for registering your Curlies !!!

### \*Buyers Checklist-

When you buy a Curly always ask about **registration papers** before you buy. It is always easier to buy a horse already registered, then all you need is a transfer. Find out if the horse is registered in multiple registries. If the horse is not registered anywhere, you are basically buying a grade horse. If the horse is eligible in ICHO, **be sure the seller provides you the needed paperwork, a signed breeder's certificate on the registration papers and a signed transfer form.** Always have a **contract**, always have a **bill of sale** and **cash receipt**. Buying a horse is no different than say buying a car, you need a title (registration or paperwork) a contract, Bill of Sale and Cash Receipt. Even if the horse is a gift, have a bill of sale marked as "Gift" as this proves ownership. It is also best to have a **health inspection (pre purchase exam)** done by your chosen vet before anything is signed or paid for. This is paid for by the buyer and results belong to the buyer unless the buyer agrees to give results to the seller. This is a disclosure of health, no different that buying a used car with a disclosure of mechanical details. Also ask the seller for the horses health record, has the horse ever founded, had surgery, been injured, sight problems, have any chronic health issues, vaccination record, worming record, etc.

Horse buyers are protected under consumer laws. If you see this listed in the contract- **"Horse is sold as is"** you will not have any recourse if the horse is ill or diseased or unfit for use, etc. **Do your homework before you buy and sign a contract and hand over cash.** It is also a good idea for **breeding horses to have a conformation inspection** before a sale. Know what is good and bad about a horse's conformation and movement so you know what you are breeding for if you buy this horse. It is always best to know what you are buying up front, not after. It can save you a lot of money down the line if something shows up in a pre purchase vet exam. Be sure the horse has the health you need to do the chosen sport or if buying for breeding. Is there a return guarantee if the horse is sterile? Buyers that ask all the right questions up front will be the happiest owners. Sellers that encourage buyers to do everything right up front have the smoothest sales and often have good repeat business. If you have any questions about registrations and transfers, please contact the office or registrar.

Thanks, Bunny-ICHO Office and Jackie- ICHO Registrar

## MISSISSIPPI MUD SLINGER

Our stallion here at Kootenai Curly Horses is Mississippi Mud Slinger, ABCR 3022. He goes back to Curly Jim through the mare Blaze. He also goes back to Lakota Sioux and Big Mac breeding. So far he has sired all curly coated foals, most of which are gaited, doing a running walk. But the real story of Mud Slinger is more profound than these statistics. His story is one of the will to live and the will to stay gentle even while enduring great pain.

On July 10 of 2008 tragedy struck Mud Slinger when a tornado rushed through our small mountain valley. The high winds tore part of the roof off of my big hay barn. The twisted metal of the roof landed in the paddock that Mud Slinger shared with his mare. Mud Slinger was impaled on the sharp metal which gouged out most of his ham muscle on the right rear leg. We called the vet. Dr. Meschke came over quickly. She did not expect Mud Slinger to live. She stated that she had never seen a horse live after it had

But Mud Slinger would do his best to co-operate with treat-  
be eight months of treatment. He endured the wound, the applying of wound salve, the area handled on a daily basis. At one point that was completely resistant to all antibiot-  
only thing that saved his life in that situation Gel. I recommend this product highly for Mud Slinger's gaping wound.

suffered such a large wound of this type. seemed to have made a decision that he ment and to live. So we started what would pain. He endured the IVs, the cleaning of bandaging and the discomfort of having the he almost died when a Listeria infection, ics, established itself in the wound. The was a silver ion product called SilvaSorb wounds because of what it did to help heal

After eight months of treatment the wound had still not closed in completely. But it was time to stop treatment and let the rest of the injury heal on it's own. And that is what it did. It finished healing.

Mud Sling not only lived, but he remained good natured. He also taught himself to walk even with the damage to his hind leg. He is able to cover mares and has continued to give us some nice foals. I am thankful that things have turned out as well as they have and that Mud Slinger was given a second chance at a useful life. Thank you.

Sincerely,  
Penny Johnson  
Kootenai Curly Horses  
Bonners Ferry, Idaho

*Editor's Note: Mississippi Mud Slinger lost his battle at the end of April, 2011 and was mercifully euthanized.*

Mud Slinger son,  
Penny's Warrior.  
He is a good cart  
horse and has  
pleased his owner.

# Creekside Curlies

Creekside Curlies~ 17829 Hubbard Gulch, Juliaetta, ID 83535

creeksidecurlies@gmail.com (208)276-7540

Sired by "Shadow's Hawk Spirit" aka "HeartBreaker"

Dam was "DKH Black Sage"

Here is the last "HeartBreaker" foal to be offered for sale from our farm. 2008 curly coated bay filly "C-C Her Royal Highness" is a filly that is simply stunning. "Princess" stands an honest 16HH.

This filly will make an outstanding competition horse, or can greatly improve your herd genetics.

Princess is kind, willing and capable. She loads and hauls quietly, knows the basics for her age, and will go into training this fall with our dressage trainer. Princess is truly a gem in the Curly world, her quiet disposition and sharp mind will make her a dream to work with under saddle.

Princess is a rare offering in the curly world... size, genetics, a product of Champion stock, and a tractable, quiet mind.

This filly is refined and elegant and she is not drafty, but more a WB type. \$6000.00

"C-C Her Royal Highness"

**AGM Ft Worth, TX.....** *Continued from page 1-* Angie was smitten with Honey, we were too! Saturday we were free to roam around town, visit area museums, shop till you drop, which we did! Ha ha. My mom, brother and I found another favorite restaurant at Risky's Steak House, yummm! We also took a Stage Coach Ride, loved it! Sunday morning it was time to say goodbyes and back home. It was such a fun time of constant Curly chatter and discussion and the Ft Worth Stockyard area was the perfect setting. Wish you could have joined us there too! *Bunny Reveglia*

**American Honey & Clint at the Mustang Makeover .....** *continued from pg 1-* and were all approximately 5 years of age. They were gathered in 2009 and held until adopters could pick them up in May 2011. The SEMM, Extreme Mustang Makeover, is unique in that the mustangs are adopted before competition and there are three levels of competition, Stars, Idols and Legends. The total purse for this competition is \$200,000. For more info, visit them at: <http://www.mustangheritagefoundation.org/> American Honey was adopted and is owned by Angie Gaines of Golden Curls Ranch in Kaufman, TX, approx 30 mi east of Dallas. Angie has 4 BLM Curly Mustangs in her Curly herd and is an approved trainer for Mustangs gathered by the BLM. In addition to Honey, Golden Curls Ranch has an approx 3 yr old bay Curly stallion known as O'Sparky who is from the same herd. Visit: [www.goldencurlsranch.com](http://www.goldencurlsranch.com) for more information. American Honey was gentled and trained in approx 90 days as required by the MHF competition. She was exhibited by Clint Hall, a horseman proud of his Texas cowboy heritage. Clint and Honey placed with 201.5 points in categories such as trail, pattern and Western calf cutting. The SEMM was held during ICHO's 2011 AGM and members were invited to meet Honey and Clint and see the other Mustangs in the competition. "This was a fabulous opportunity to share our Curly Mustangs with others in the horse world and show them a wonderfully calm and gentle representation of our American heritage, A Mustang with heart and Curls." Angie plans to continue showing her Curly mustangs and invites you to visit and meet American Honey and O'Sparky. *Angie Gaines*

## \*Y.S. SuPAR Hiro

May 2008 gelding (\*Y.S. Hokkaido X \*Spartacus) ICHO Reg. Pending

A stunning offspring by \*Spartacus!!! Very nice gelding with floating movement and superb temperament. He would make an incredible Youth Dressage horse. Should finish around 15.1hh. Hiro loves to be worked with. He has the basics, leads, loads, trailers quiet, ties, stands quiet for farrier and vet, has been very lightly backed, naturally collected, balanced and forward moving, absolutely no issues, loves to work. \$3500. Price will increase with Training & Showing.

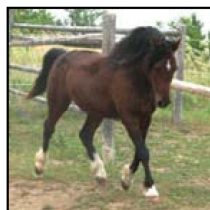

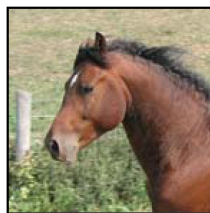

## \*YS Kirin

May 2007 (\*YS Kinyobi x \*YS Hokkaido) ICHO Registered

Kirin is a superstar! She has been nice to work with since the day she was born and her saddle work is no different. She has a stellar temperament and very willing to learn. She lunges, stands for farrier, vet, bathing, getting tacked up and mounting. Hacks out quietly on her own. She should finish about 15.1hh. Has a solid start under saddle and would be very suitable for someone getting back into riding.

\$3500. Price will increase with Training and Showing.

## \*Y.S. Kinyobi

DOB June 15, 2001 (\*Y.S. Tanjobi x \*Velvet Lady)

ABC, ICHO, CSI registered full

Kinyobi is a fabulous Curly breeding stallion and consistently produces athletic and correct offspring. He has a superb temperament which he passes on to his offspring. Excellent to work with for hand, AI or pasture breeding. Kinyobi has been started under saddle but would need to further his education. Kinyobi is 15hh. He crosses very nicely with solid built mares to produce nice well balanced, excellent movement, correct Sporty foals. \$10,000 negotiable.

## \*Y.S. Kokoro

DOB April 25, 2010 (\*Y.S. Kinyobi x Social Lite (CSH))

ICHO Registration Pending

Here is a really flashy Curly filly. She has an incredible temperament! She is extremely easy to work with and a very lovely girl with nice conformation and great movement. Her dam is 16.1hh and Kokoro will finish close to that. Definite dressage and jumping prospect. \$3500.
