Standing at Stud – DCC Traveler – Curly Sporthorse Stallion

2011 CSI – **Horse of the Year**, Combined Training, Novice Division

2011 ABCR – **National Performance Horse**, Grand Champion

2011 ABCR – **National Versatility Horse**, Grand Champion

DCC Traveler is an outstanding example of a Curly Sporthorse Stallion. Traveler demonstrates the bold movement of a Curly horse, while maintaining a strong, smooth and even gait. He sports a double Curly mane with the rare pin-curls and is suspected to be homozygous for curls. 100% Curly foals to date from Straight and Curly horses. Traveler and his off-spring are hypoallergenic due to his dominant Curly gene.

His offspring inherit his strong bone structure and conformation, along with his awesome personality. They present themselves as smart, easy going and great to handle & train.

Breeding Fee: \$600

Booking Fee: \$150

2012 ICHO Annual General Meeting in Vermont!

Held at Betsy Larakis', members are enjoying Jousting on Betsy's Curlies!

Zoe Larakis and Dressage

The Jousting pattern!

Jackie Richardson with a steady seat!

Just a quick note on the AGM....was Fabulous!!!! Betsy's was just beautiful! We had a blast! The food was awesome!! Getting to meet everyone we have only chatted with on line was soooooo cool!!! We did the most fun stuff and educational as well!!! Everyone but me did Jousting and it looked like so much fun....I chickened out because I am so short the horse was tall and was in a English saddle and no steps....I have a hard time crawling up on tall horses anyway so didn't want to pull the saddle over ...lol But it was a blast to watch....picture were taken so will be posted soon so you all can see how much fun and what you missed! Dressage demo...excellent instructor ...everyone just loved her!!! Yoga for the rider and horse...Michelle's daughter demonstrated and Zoe instructed...totally cool!!! That was just a small picture of what all we did....all was just fabulous!!! Beautiful weather except for one quick storm that went thru Saturday night....Trish was a great "Vanna" with the Auction! We are saving the big items and putting them on line for all of you to be able to bid on because they are so cool and not many could make it...but what we did do was so fun!!! Trish was so funny...it was just a really fun time!!!! More later from the other guest will be coming I am sure!!! I met Billy Bob and she is fairly close to me so we are planning on getting together at each others house for some horsey fun....Loved you Leslie!!!! What a great gal....she was game for anything!!! Did an excellent job at jousting, as well as Julie H.....you go girls!!!! You rocked the Jousting!!!! Can't wait for the pics so you can all see what you missed if you weren't there....I had the best time I have had in years!!!! A big Thanks to Betsy who is just an inspiration ...she does so much to promote the Curly!!!! I admire her and love her to death...what a worker!!!! And did I mention the food....I never ate so muchthe whole thing was just fantastic!!!! Jackie

NACHR NEWS~ All registrations, transfers, stallion reports, breeding certificates are now being requested to be typed before sending to the office. Because of the difficulty in reading people's handwriting, we are now requesting all forms be typed, then printed and signed and mailed. All Overseas submissions **MUST BE TYPED**. This speeds up processing in the office and for the registrar. If you submit handwritten forms and they are unreadable, you must also supply a typed form as well so we can read them and process them. Thank you for helping ICHO process your submissions more quickly and efficiently!

Stallion Reports- are due for 2012 breeding year by Feb 15, 2013. New typed in email form in Word Doc is preferred. Type in your info, verify your active breeding stallion is DNA typed on the new Word Doc form. If your stallion is not DNA typed and did breed in 2012, also include a hair sample and DNA testing form for U of KY and \$30.00 DNA typing fee. **TYPE** in the info on the DNA form before printing and signing so the lab can read it. All stallion reports and DNA testing forms **MUST** be typed for 2012 and all future years. If you have a DNA lab report from another registry, we accept them, just include a copy of the DNA report and the \$10.00 other lab recording fee so we can enter it in the U of KY ICHO DNA database. Thanks!

~Our goal at **Hidden Meadow Curly Horses** is to promote the North American Curly Horse & American Bashkir Curly Horse (including but not limited to the Curly Sport Horse

and the Curly Horse Crossbred Horses). We believe that the Curly is not only a wonderful breed, but also an asset to any breed improvement program.

~ Standing at stud for the 2012 year: ARC Nissi, ICHO 1074-D, 2003 Sorrel Stallion/Warrior lines on top and bottom of pedigree. Extreme, throws full mane, tail, and curls on all his babies. 2012 Stud Fee is private treaty. Call or email to book your breeding!!

DCC Traveler 142-D at Aspen Farm Horse Trials and Area 7 Championships placed 11th and was the only Curly horse at the Event - out of the 400 horses and expert riders entered. One of the highlights was being "picked" by researchers from the University of Oregon to include Traveler in a conformation study about Eventing horses.

*"Strong Enough for a Man;
Gentle Enough for a Child, or an Old

Here at Kootenai Curly Horses we are developing a line of truly good natured and kindly curly horses, based on the old Damele blood lines, with just enough out crossing to maintain good conformation, good skin quality and good disposition. We do NOT sell any horses that do not meet our goal of good disposition.

This is a matter of integrity.

We will be offering, in the near future, several select curly saddle horses that have been broke by Mr. Axel Grothe, a very good trainer. We will also be offering young stock. Because we take our job seriously, we require that a buyer visit our horses before purchase.

Please see the pictures, shown here, of Mr. Grothe working with Ben to break him to saddle.

Thank you, Wayne and Penny

ICHO Curly Breeders Information Center

ICHO welcomes all breeders and the freedom to choose what type of Curly breeding program they want to pursue. With so many options the sky is the limit:

Sport horse type, Gaited, pony/mini, Draft crosses, BLM mustang, other breed crosses, etc. the list of choices is endless. We encourage breeders to choose their program and have their stallions live inspected as well as their breeding mares through NACHIP. Breeding horses should be chosen by picking the best in conformation, movement and temperament, all three qualities being of equal importance. Overall health and genetic health is also at the top of the list. Test for genetic diseases known to be found in the breeds your Curly carries before breeding, such as HYPP, HERDA, CA to name a few.

What ICHO requires of Breeders to register the offspring they have produced.

Breeding Stallions: Starting in the breeding year 2012, all active breeding stallions are required to be DNA typed through U of KY by Feb 15, 2013. If you have DNA lab results from another lab, we will record those results with U of KY for a \$10.00 recording fee and a copy of the other labs DNA report. By having all breeding stallions DNA typed it will be easier in the future to have foals DNA tested if their parentage needs verified.

Stallion Reports are required of all ICHO stallions every year even if not used. Stallion reports are due Feb. 15 for the previous breeding year. (*example- 2012 breeding year, report is due Feb 15, 2013*) We have easy to use fill in forms for the Stallion reports. Please type in your info so it is readable and you may email the form to office@curlyhorses.org All stallion reports are recorded in our ICHO database.

Breeding Certificates are required for all domestic breeding's to verify the pedigree of parents and offspring. If you are a stallion owner you are required to issue a breeding certificate to all mare owners when you stand your stud to their mares. You may use the **Fill in Breeding Certificate long form** found on the webpage. You keep a copy and the other copy goes to the mare owner. The foal is required to have a breeding certificate verifying sire and dam when registered. There is also a short form of the Breeding Certificate on the **top of registration form page 2**. We need one or the other for all registrations to verify the pedigree. Also give the mare owner a copy of the stallions registration certificate with pedigree or a pedigree form (*on web page*) with stallions name, reg# and complete pedigree filled out with names, reg# and Colors. These are required for the registration of offspring.

Mare owners that breed to other outside stallions also need a breeding certificate signed by the stallion owner. As mare owner you can take the **long form** to the stallion owner to sign and date it if they do not provide one for you. All mare owners need to be sure they get a breeding certificate for all outside breeding's to their mares at the end of the breeding session. This is required for the offspring of the mating to have a pedigree. Also be sure to get a copy of the stallions registration certificate with full pedigree, or a pedigree form (*on web page*) with full details including names, reg#'s and Colors, as this is required info for registering the offspring. **DNA testing** of the sire and dam and offspring can also prove parentage for an offspring to have a pedigree.

Any Curly's without verified pedigree can be registered as unknown in the U division. BLM born Curlies will be placed in the D division since they were wild born on BLM land. Include the BLM adoption certificate when registering adopted Curlies.

If you are the owner of both sire and dam at time of breeding you fill out the breeding certificate yourself and sign and date the long form or top of page 2 of Registration form.

Leasing Breeding Stallions and Mares if you are leasing your ICHO stallion or mare, make it official with a **lease report** and file it with ICHO. This could save some problems down the road if a lease goes sour. By having it recorded with ICHO you have an official document. Also always use a lease contract with terms spelled out clearly so the owner and lessee are protected from any misunderstandings of the terms. For mares leases, also spell out clearly who owns the foal when born if the lease includes a breeding to a certain stallion. Be sure to cover clearly what happens in case the stallion dies before breeding or mare does not take. Also who is responsible for vet fees during the lease and what arrangements should be taken if the horse dies while on lease. Cover all your bases.

Mares and Foaling The mare owner who owns the foal at birth is the Breeder and First owner of that foal. If you bought a pregnant mare, the original owner at time of breeding is the Breeder and current mare owner is the foal owner. (*Exception-* original breeder has foal rights and this was arranged before foaling in a contract with current mare owner.)

If the foal is sold at any time in the future, the buyer becomes the Second owner. To register the foal for the first time in Second owner's (Buyers) name, requires the **registration forms** filled out and a **transfer form, all fees,** required items and signatures and dates. The Registration Certificate will list the mare owner as breeder and the new Buyer as owner. Sellers are required to provide all the necessary paperwork to the buyer so the foal/horse can be registered in ICHO. Only breeders can provide this documentation so it is your job as Breeder to provide this paperwork for all buyers.

It is suggested that all breeders register all foals before selling them. Then all the buyer needs is a transfer form, original certificate and fees. A transfer only takes a few days to complete where a registration can take several months to process.

Selling already registered horses is the fastest easiest transaction for all sales, especially for overseas sales. We no longer offer rush services for domestic USA sales. If you are in a rush for an overseas sale, the penalty fee is \$300.00 per horse to have your registration processed in time for quarantine. (*Check first to see if it can be done in time.*) Plan ahead because you never know who may contact you from another country wanting to buy your Curly/s even if they are not listed for sale. Don't miss out on a sale because your horse is not already registered. Be prepared. This benefits you as a breeder and buyers will spread the word on how easy a sale it was and how you were prepared with all documents at time of sale. Buyers remember these things and will send other buyers your way. Protect your reputation as a Curly breeder by being a step ahead.

All breeders need to keep horse records, go **tips on keeping horse records** found on our NACHR Registry page.

If you have any questions please contact the office at office@curlyhorses.org or our Registrar Jackie registrar@curlyhorses.org

All registrations, transfers, DNA forms, etc must be sent to the ICHO Office for processing. Do not send them to the Registrar as that causes delays in processing. They must come to the office first. Thank you!

**Note- All Registration Certificates must follow the horse when sold.*

Highly suggested: Always provide a Bill of Sale and/or Contract for the sale.

6. Leasing Breeding Horses provide or obtain a lease contract and file a Lease Report with ICHO for documentation. *Not required but highly suggested.*

Kids and Curlies!

Hi my Name is Kendahl D'Uva, I am a big part of Cozy nook Curly's in Colville Washington. My horse I am showing is RRR Black Rose ICHO 402-D. I competed in the local Fair, N.E. Washington Fair this past August 2012. We did very well for our first big, big event. Rose and I are both just getting started in our show career together. Rose was a brood mare for more than half her life and My Mom had Misty Wegner (a very good friend of hers) start Rose under saddle and she is my riding instructor, unfortunately things got very Busy this year and we didn't do as much training as we had hoped. But we still scored very well. We had about 3 serious lessons prior to the show, and my very first lesson in English attire. Just before the show, Mom trimmed Roses hooves, and we trimmed her whiskers and bridle path, I gave her a bath to make her pretty black coat shine. We checked in on Wednesday afternoon and stayed till Sunday at 4 pm. We had a lot of Fun. The classes I did, I placed well in.. Showmanship we got a red, English Equitation reserve Grand champion, English Pleasure a grand Champion, Stockseat equitation Grand champion, western Pleasure Reserve Champion, Western Riding Pattern a blue, Trail class Grand Champion. The gaming

classes we mostly got whites due to our speed, but we are just learning the patterns. Plus Mom says equitation, equitation, equitation.. We need to learn proper horsemanship skills before we can do all the speed events and do well, as they all work together. I plan on showing Rose all next year and our Goal is to make it to State 4-H competi-

Old Age Curly Info-

I had the pleasure of doing an article in a magazine that went in our local area...the magazine covered a good part of Western Idaho, Eastern Oregon and Eastern Washington, I got 2 unexpected responses from that simple article, I will give a highlight of both. Oh! and a 3rd one too...almost forgot!

On a hot summer day, several years ago, we had a car come into the drive...out of the car came an older gentleman and his wife....the man's name was "Pink Greene" I suspect "Pink" was a nickname. He looked over our horses and shared his life experience with us....

As a young man, his Dad owned a curly stud and a couple curly mares. These horses were BIG, more of a draft build, perhaps a draft cross. The years were in the late 1920' into the 30's and early 40's ...of course, long before the ABC was founded.

The Dad used the curly stud with the mares and with other local mares to produce work horses.....Pink remembers how quiet and mannerly the stud was, especially compared to other studs of the area. Pink looked over our herd and said they compared closely to his family herd...not in the draft manner, but in the temperament and willing manner...we had several new foals running around, all of which were more than willing to get a good scratch and attention from Pink.

and then...he brought out PICTURES !!!!! (see below)

I would have loved to ask more, but Pink was not in good health, and he passed away shortly after that. It was an amazing day, I am still amazed he took the effort to come to our place and tell him his own personal experience with curlies..what a treasure!

Shortly after that..I received a letter in the mail from a lady that lived near Pendleton , OR...she wrote..."When I was a kid, we used to go to the Tribe's (Nez Perce) stud farm and look at the horses..they kept several horses there that had curly coats...I remember a curly buckskin stallion in particular, he was beautiful beyond words" the year was probably around 1920.....she said they kept several curly coated stallions, ALL of which were "colors of the wild' as she put it...I presume buckskin or dun.....

and..once I was visiting a local tack store...I was telling the lady about my horse herd, and she had her husband come in the room and tell me about his! In the same time frame (1920-40) ..He spoke about a curly coated horse they caught in the Blue Mountains between OR/WA/IDas a boy he thought the curly coated horse in the herd was the one to catch and train....you know...something different. Well, they caught him and used him and some one suggested he might be "sick" because of the curly coat.....SO, they took him to Washington State University (renowned Vet hospital) and did all sorts of test on him....they never could find anything wrong with him...LOL.....this gentleman said he was an awesome riding horse.

These accounts/photos of curly ownership are not from the 1800's or before, but they are from a time period we really know very little about....the photo is "Pop Greene" and his curly stud and mare.
